BELOVED MINISTER DIES ON VISIT HERE

Rev. V. W. Crutchfield Succumbs To Leakage Of Heart—Was Formerly Pastor Here

Friends here were deeply grieved and shocked late Saturday afternoon when it became known that Rev. George W. Crutchfield had passed away at the home of Prof. J. B. Harris, on Fifth street. Rev. Crutchfield and wife arrived in Richmond the middle of the week, en route from a three month's stay in Florida, to the home of his daughter, Mrs. Magin Kinzer, in Ghent. He was pastor of the Methodist church here about eight years ago and he and his family were greatly beloved by the members of his church and many citizens were warmly attached to him by his genial and winning spirit.

During his recent work as Presiding Elder in one of the mountain districts, his health failed. He suffered from leakage of the heart and his physicians advised a trip south. His condition did not improve, however.

Rev. Crutchfield was 58 years of age. Surviving him are his wife, who was Miss Hall, of LaGrange, his daughter, Mrs. Kinzer, of Ghent, one brother, Mr. Stapleton Crutchfield, of Pittsburgh, Pa., and one sister, in Louisville. The body was shipped Goshen Monday for interment, near his old home. The hearts of many warm friends in Richmond deeply sympathized with his devoted companion in her bereavement. May she lean upon the Everlasting Arm and He who has been her stay and comfort many years, guide and sustain her during this trying hour.

HOUSE BLOWS DOWN ON 15 PEOPLE

W. J. Romans, the well known farming implement, wagon and buggy man of Lancaster, who was over court day, said that Lincoln county suffered quite a severe wind storm Sunday afternoon. He had been informed that a house in which 15 people were sitting was blown down and a barn close by was almost demolished. Mr. Romans had not heard whether anyone was killed in the destruction of the house, but it would seem almost a miracle that some of them were not seriously hurt.

FRANCE RUSHES MEN INTO GERMANY

(By Associated Press) Paris, France, April 5—French military measures destined to force the German government to withdraw its troops from the Ruhr basin, are now entirely in the hands of Marshal Foch; it was said at the Foreign Office today. Information tends to the belief that Germany has sent 40,000 troops into the district for which it is said there is no necessity, are the Communists are without money food or ammunition.

The utmost secrecy is maintained concerning the nature of the "military precautions," which Premier Millerand has ordered Foch to take. A rumor is current that the French army began moving from Mayence and Weisbaden upon Frankfort this morning. All soldiers on Easter holiday have been ordered to return without delay. France still has under arms 700,000 men.

Washington April 5—State Department officials today said they had no notice of France's intention to occupy cities on the east bank of the Rhine as reprisals for the advance of German troops into the Ruhr valley neutral zone. The United States had previously notified the Allied governments that it would have no objection to the German troops' movement if they were withdrawn as soon as normal conditions were restored.

Marion Farm Brings \$184.50

The Ben S. McElroy farm in Marion county, sold last week, was purchased by C. L. Brady, of Washington county. The price was \$184.50 per acre. The farm contains about 157 acres and the price paid for it by Mr. Brady was therefore approximately \$29,000. Mr. McElroy is a brother-in-law of Dr. J. G. Bosley of this city.

THE WEATHER

Fair tonight and Tuesday with slowly rising temperature; freezing temperature and frost tonight.

MRS. TAPP DIES FROM AUTO INJURIES

Warrants Against Two Young Kirksville Men Have Been Been Changed to Murder

Mrs. Charles Tapp died Sunday evening at her home on First street, after several weeks intense suffering, caused from injuries she received when she was struck by an automobile in Richmond. Surviving her are her husband and three sisters, who were at the bedside when the end came. She was about 46 years of age, and was a daughter of the late John Taylor, who was postmaster for over 20 years in Richmond.

Funeral services will be conducted at her late residence on First street Tuesday afternoon at 3 o'clock. Burial will be in the Richmond cemetery.

Young Men To Be Tried

As a result of the death of Mrs. Tapp, the warrants against Wm. Prewitt and Frank Simpson, two well known young men of the Kirksville section, who were in the car that struck Mrs. Tapp, breaking her hip and causing her death, have been changed from assault and battery to murder. Sheriff Whitlock said Monday. The young men will be arrested at once, he said, and it is probable that they will have an examining trial at once. Both claim that they not at fault, and that the deplorable accident was entirely unavoidable, and their friends say that they will be able to show this when their cases come in.

HEAVY HAIL DOES DAMAGE SUNDAY

The predicted Easter cold wave came a few hours late, but it came all right. This section experienced heavy rains Sunday afternoon, but a hail storm of unusual intensity and duration caused a lot of damage in the lower end of this county, Garrard and Lincoln. Messrs. Wm. Hunley and S. W. Fife, who were returning home from Crab Orchard in an automobile Sunday afternoon said that hail fell to a depth of several inches, and blocked all traffic for quite a time. They say that the hail stones were often as large as walnut.

Early risers Monday found snow falling, and the thermometer continued to fall during the day with snow coming steadily around noon, and the mercury registering close to the freezing figure.

EASTER STORM IS SPREADING

(By Associated Press) Washington, April 5—The Easter storm, which buried the Southwest and Midwest under a snow blanket spreading today with an accompanying cold wave, between the Appalachians and Rocky Mountains. Frost and freezing tonight are predicted for the east Gulf states and extreme north Florida and the Ohio valley. Freezing temperatures prevailed today as far south as the interior of Texas, northern Louisiana, Mississippi and Alabama.

MORROW PARDONS PARIS BANK WRECKER

Governor Says He'll Make Public His Reasons For Freeing George Alexander

Frankfort, April 5.—Prior to issuing a pardon for George Alexander, convicted of wrecking the Alexander Bank of Paris, Governor Morrow today announced he would make public his reasons for not freeing Alexander. The failure of the bank in 1914 created a sensation.

Miss Kate Alexander, daughter of the former banker, has labored indefatigably to obtain a pardon for her father.

The statement was coupled with the Governor's definite announcement that he would issue the pardon. Alexander is said to be in bad health. He entered the prison robust person and is now a physical wreck. The Governor's reasons for issuing the pardon are embodied in a statement which he dictated to a stenographer during the forenoon.

Alexander has served approximately five years of a practically indefinite sentence. Those who know Alexander say that few of his most intimate friends would recognize him to-day. When he entered the penitentiary he was a man of distinguished bearing, and apparently in perfect health. He now is said to be literally a mere shadow of his former self. His health is reported to have been shattered, and it is said that Governor Morrow has consented to pardon him largely for this reason.

Failure of the Alexander State Bank at Paris caused one of the biggest financial sensations in the history of Kentucky. Hundreds of depositors, a great many of them persons of limited means, lost all their savings in the crash.

Alexander is nearly 70 years old. Until the closing of his banking institution, known as George Alexander & Co., May 19, 1914, Alexander was considered to be among the most prominent and respected citizens of Central Kentucky. He and his family were social favorites. They had belonged to a distinguished family and lived expensively, and until the failure of his bank Alexander was regarded to be a man of immense wealth.

As the firm was not a national bank but was in business under a state charter, the arrest and subsequent prosecution and conviction were brought about under the jurisdiction of State Courts. He was sentenced to and since has been confined in the Kentucky State Prison.

The failure, the prosecution and the conviction attracted widespread interest, not only because of the prominence of the Alexanders, but because of the extensive loss to depositors of ranks and conditions of life. A veteran saidler was reported to have lent to the banker his life savings of almost \$40,000, collateral for which was missing when the examiners took charge of the bank after the failure. Losses of from \$15,000 to \$20,000 were reported by men and women who had considered withdrawing and reinvesting their funds but who had been prevailed upon by Alexander to leave them in the keeping of his company.

The pathetic element of the case aside from the losses suffered by the depositors, was said to be the sorrow and humiliation visited upon the family of the defaulting banker. Relatives sought to sustain and comfort him, both before and after the trial, refusing to believe that there was any wrongful intent or desire to defraud, and contending that the bank failure was due to a faulty system of keeping accounts.

GRAND JURY TO PROBE LOBBYING

Frankfort, Ky., April 5—As a result of the House legislative committee investigation in connection with the Loan Shark bill, the Franklin county grand jury will inquire into lobbying during the last session of the general assembly. Circuit Court Judge Stout, taking cognizance of press reports, of the probe committee's work at the Reformatory, charged the jury which began its session today, to ascertain if there is any foundation for the probe committee's accusation.

HAMILTON MAY RUN FOR JUDGE

Internal Revenue Collector May Be Candidate To Succeed John D. Carroll

Democrats all over this appellate court districts are interested in the rumor that Collector of Internal Revenue Elwood Hamilton may be a candidate for Judge of the Court of Appeals to succeed Judge John D. Carroll, who has announced that he intends to retire and practice law in Louisville. Collector Hamilton, whose home is in Frankfort, is proving one of the most faithful and efficient officials anywhere in his rigid and impartial enforcement of the state prohibition laws, served several terms in the legislature from Franklin county and is conceded to be one of the ablest attorneys at the bar at the state capital.

Many country newspapers over this district are giving him hearty endorsement for the position. It has been reported that Hon. Rogers Clay, of Lexington, who is Commissioner of the Court, would be candidate, but it is hardly believed that if Collector Hamilton announces for the office, that Clay will oppose him, as it is conceded that Mr. Clay is continue as Commissioner of the court as long as he wants to, and that place pays the same salary as Judge.

The Stanford Interior Journal and the Danville Advocate both announce their support of Mr. Hamilton if he becomes a candidate for the appellate bench. The Stanford paper prints the following strong editorial in his favor, which the Danville paper reprints with its hearty endorsement:

For many years after the Civil War the unsettled conditions of the country made possible the bringing of thousands of lawsuits, and brought before the public the best talent in the land, both as practitioners and judges. The recent world war has to a certain degree brought out a demand for legal talent, more especially on the bench than in the bar. This year a judge of the Court of Appeals is to be chosen in this district to succeed Chief Justice John D. Carroll, who will not seek another term. The interior Journal has no interest in any candidate further than a desire to see that he is a man of clear, sound intellect, young vigorous and capable of bearing the burdens that will be placed upon his shoulders. In Hon. Elwood Hamilton, of Frankfort, we believe the people could look to with a certainty that the many intricate questions coming before him as judge, would be disposed of with clearness and precision. As many of our readers know, Mr. Hamilton is Collector of Internal Revenue for the entire state. As such he has shown to a marked degree judicial soundness of mind, for the hundreds of knotty problems coming up as a result of Federal taxation and the Federal prohibition amendments, have made it necessary to render many decisions, which have been models of judicial soundness and purity of decision. The Interior Journal does not know that Mr. Hamilton wants the office, but it does know that if he should enter the race he will be a hard man to down not so much because he may understand what is commonly known as the game of politics, but because of the splendid record he has established as the head of the Federal revenue office of Kentucky. We hope Mr. Hamilton will give the matter serious consideration.

SUIT OVER COW AND CALF

In the Madison County Court Saturday, a verdict for the plaintiff was rendered by a jury, in the case of William Barnes against Ed Sprakes, in an action for the revision of a contract, by which the plaintiff asked for the return of \$135, the amount paid the defendant for a cow and calf.

As such he has shown to a marked degree judicial soundness of mind, for the hundreds of knotty problems coming up as a result of Federal taxation and the Federal prohibition amendments, have made it necessary to render many decisions, which have been models of judicial soundness and purity of decision. The Interior Journal does not know that Mr. Hamilton wants the office, but it does know that if he should enter the race he will be a hard man to down not so much because he may understand what is commonly known as the game of politics, but because of the splendid record he has established as the head of the Federal revenue office of Kentucky. We hope Mr. Hamilton will give the matter serious consideration.

MULE MARKET ACTIVE MONDAY

The mule market was very active here Monday. Buyers say

that the market continues high. The cheapest pair that was seen sold was bought by John Goggin, of Lincoln county, for \$475. They were a team of six-year-old horse mules. The buyer's name was not learned. Charles Bean, of near Bryantsville, bought a pair of mares for \$700. D. L. Cobb, of this county, paid \$300 for a 5- or 6-year-old mare which he bought from Wilkes Rogers, of near Boonesboro.

Thought These Jobs Were Abolished

Gov. Morrow bragged of the many useless offices he had abolished and included the State Fire Marshal's department. We noticed a lot of mighty good republicans have been named to draw the salaries for those very jobs, however. A dispatch from Frankfort says that W. T. Crosswhite, of Lexington, was appointed fire marshal by Auditor John J. Craig. He had held the office since January 5 on the retiring of Tom Pannell. J. A. Leach of Beaver, Dam, former State Senator, is assistant fire marshal; John C. Brock, Louisville, and E. R. Branies, Ft. Thomas, field men. Mrs. W. W. Dawson, Frankfort, had previously been appointed stenographer for the office.

Pepto-Mangan Would Help Her

A Wonderful Tonic That Brings
Back Vigor And Happiness
To Run-Down People

Too often the old folks take a weakened and run down condition as a matter of course, when they should be feeling as vigorous and happy as ever.

One secret in staying young in body and spirit is to keep the blood red and rich. Good blood drives away listless and depression—keeps mind and body active and alert.

Doctors recognize that worry, a recent illness, impaired digestion or any of a dozen different things may prevent the food we eat from becoming nourishing, strength-giving blood. For this condition they recommend the taking of a good tonic for a time.

Pepto-Mangan, "the red-blood builder," is heartily and widely endorsed by physicians because of its wonderful blood anemic people—to bring back vitality, health and happiness.

Pepto-Mangan may be had at any drug store, and in either liquid or tablet form, just as you prefer. There's no difference in their effectiveness. But be sure you get the genuine Pepto-Mangan. Ask for it by the name, "Gude's," and be sure that name is on the package.—Adv.

Wooltex Polo Coats

1090

The
Wooltex
Designs

The Camel's Hair Polo Cloth as well as the soft lines make this coat particularly well adapted for sports wear. But that doesn't mean that it is limited in its uses. Its snug shoulders, well fitting collar and just right belt places it in the same group with other Wooltex tailormades.

It's the invisible details in a Wooltex that make the visible perfection.

Come in and try on these interesting favorites.

IMPORTANT CHANGE
IN TRAIN TIME

The L. & N. railroad, under private ownership again, is announcing a change in its local schedules, effective Sunday, April 4th, one of which will undoubtedly please many of its patrons. That change is restoring the time of the early morning train to Frankfort back to 7 a. m. For the past month or so this train has been scheduled here to arrive at 6:10 a. m., which has forced those wishing to travel it, to break into their "beauty sleep" and eat a mighty early breakfast to catch it. Returning this train will arrive here again at 6:45 p. m. as of yore, instead of 7:22 p. m. its recent scheduled arrival time. The other changes announced are trivial changes in time of the main line, and are shown in an advertisement in this issue.

A Deserter Baby

A 10-pound baby boy, naked save for a swaddling cloth, was found nearly dead from cold on the concrete floor in the basement of the Walnut street school at Owensboro, the person who abandoned it in the night having broken a window to carry it in.

At Ashland Mrs. T. H. Higgins suffered a fractured skull, broken rib and other severe injuries when she was struck by a motor truck.

River Steamer Sinks

The steamer Bowing Green, sank in 13 feet of water when it hit a rock off South Carrollton. Passengers and freight were removed without mishap.

Clarence Dunn and wife, blessed with twins at the New Harrison hospital at Cynthiana, have decided to name them Clarence and Clara.

ELKS INSTALL OFFICERS

Richmond Lodge of Elks held their beautiful installation ceremonies for the new officers of the lodge Friday evening. Judge W. R. Shackelford conducted the ceremonies, and installed the following:

Tiler—John D. White.

League Clubhouse At Maysville
Plans for remodelling the building of the Central Presbyterian church at Maysville into a memorial clubhouse and museum for the American Legion, provide for movable seats in the auditorium which will permit of gymnasium sports and dances.

Danville Workhouse Empty

Proposing to board future prisoners at the county jail, the Danville council voted to abandon and rent out the empty workhouse, and it has been suggested that it be remodelled for a boarding house.

Buys Coal Concern

R. S. Mason, Eddyville, bought the Carbondale Coal and Coke Company's properties, sold in bankruptcy proceedings at Madisonville for \$47,600.

Not Bad For April 1

At Henderson, an April fool joker's report that 100 bottles of whisky had been found in the city dump, and would be given away to flunkers on application at police headquarters caused a gathering of 500 persons at the station.

Load of Good

The Chalmers for 1920

The various Chalmers cars for the season of nineteen twenty embody the best engineering and manufacturing features that have been evolved in the Chalmers factory since the advent of the first Chalmers "30," back in 1909.

Each model is a development, rather than a creation. There are enough models in the Chalmers line to permit the most discriminating motorist to select a car that will best meet his particular motoring requirements.

And no matter which model you choose, you will benefit from the performance of the new famous Chalmers Hot Spot engine, with its Rams-horn manifold and other advanced features of design.

So satisfactory has this motor proved itself to be under the myriad tests that have been given it during the past three seasons that its type will be continued indefinitely.

The great Chalmers Hot Spot engine turned the drift of engineering thought back to the subject of better gas preparation. And on gasoline has gone lower and lower in grade, this motor has lifted the Chalmers up

among the few great cars of the world. Even should motor car fuel deteriorate still further in quality, this engine is perfectly capable of volatilizing and converting it into power.

The record of this motor has established three convincing facts:

First, that the Chalmers engine will start almost instantly and run smoothly regardless of climatic conditions;

The flavor lasts—and the electrically-sealed package brings

WRIGLEY'S
to you with all its goodness perfectly preserved.

Sealed Tight—Kept Right!

Lovers Hugged In Court

At Maysville a hug stopped trial of the Schumaker murderer. Two cooing lovers from the county were spectators. The Ronie probably thought no one was watching. The crowd laughed. Judge Newell ordered Deputy Sheriff Armstrong to conduct the couple to the street.

Undertaker's Close Call

At Bowling Green McElwain Hall, driver for an undertaking firm, came near riding slowly behind. In a collision between fire truck and an auto, he was thrown to the street, a rib broken and other injuries sustained.

Welcome Relief From the Tortures of Rheumatism

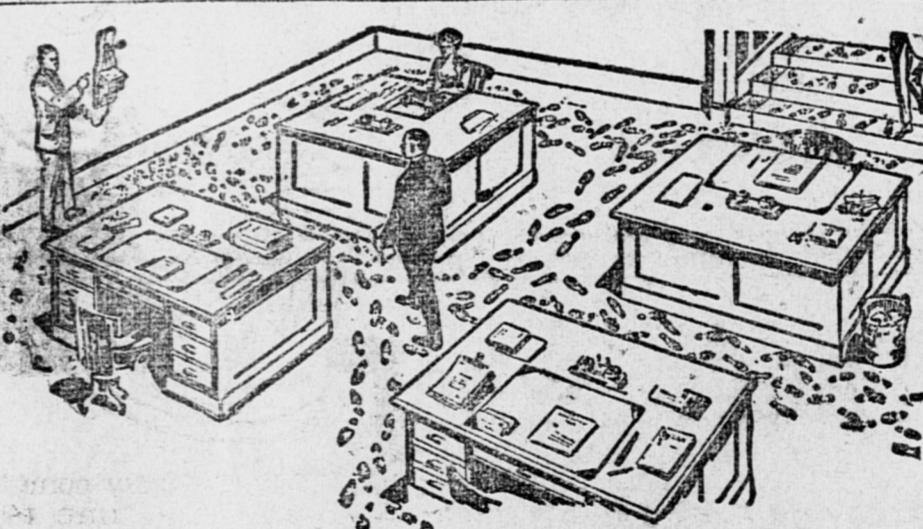

Can Come Only From the Proper Treatment.

Many forms of rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight.

The most satisfactory remedy for rheumatism is S. S. S. be-

cause it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of impurities, and acts as an antidote to the germ of rheumatism.

S. S. S. is sold by druggists everywhere. For valuable literature and advice address Chief Medical Adviser, 107 Swift Laboratory, Atlanta, Ga.

HOST OF NEW LAWS
AFFECT SCHOOLS

State Superintendent Sends Out Digest of Measures That Touch Education

One gets an impression that most of the laws passed by the legislature which recently adjourned at Frankfort, was for the benefit of the schools of the state, when he looks over the digest of laws enacted that affect the educational situation, as prepared by State Superintendent George Colvin. Prof. Colvin is sending out a brief synopsis of the new measures as they touch on school matters. He shows the auditors of the bills in both House and Senate and tells what the measures mean. His digest of the school laws is as follows:

Reorganization of Rural Schools
Senator Antle—Representative Trumbo—To create a non-partisan County School Board of five members, elected from the county at large, with authority to establish districts, appoint County Superintendents and teachers, fixing minimum school rates at 25 cents and minimum salary for County Superintendent of \$1200.00.

Teachers Salaries
Representative Trumbo—To establish minimum salary of \$75.00 per month for public school teachers. This is more than double the minimum salary in many of the counties. All cities have made provision for increasing salaries also.

School Survey
Senator Morris—To provide for an educational survey of the school of the state, appropriating \$10,000.00. This survey is to be made by non-resident experts, and is to include all educational institutions of the state supported wholly, or in part, by public funds.

Constitutional Amendments
Representative Mason—Senator Harlan—To amend the Constitution so that the State Superintendent may be appointed instead of elected, and if elected may succeed himself. At present the State Superintendent cannot succeed himself, no difference he may be.

Representative McLaughlin—Senator Bright—To amend the Constitution so that ten per centum of the school fund may be distributed otherwise than on per capita basis. Among counties and cities, this will enable the weaker counties to receive special assistance provided they levy a special local tax. This will be used to stimulate effort and equalize opportunity.

Certification of Teachers
Senator Moss—To provide that teachers' examinations shall be conducted in counties and papers sent to State Department of Education; requiring high school education and normal training as qualification for teachers.

This law simplifies the system of certification and raises the standard. Compulsory School Attendance
Senator Antle—To provide for appointment of school attendance officers and make attendance at school compulsory up to age of sixteen, unless youth has finished eighteen grade. Under certain conditions youths between fourteen and sixteen may go to work. This is one of the best attendance laws any state in the union.

Representative Roth—To require evidence as to age and physical fitness for youths fourteen to sixteen years old to receive permit to work.

Physical Education
Senator Morris—Representative Reynolds—To provide for physical education as a part of a school course in all the schools of the state. This law provides that the State University and all State Normal schools shall provide courses in physical education, and after July 1st, 1921, all graduates from teacher courses in

these institutions shall have completed one or more courses in physical education.

Relating to City Schools
Senator Monroe—To allow Schools Boards in first and second class cities to fix the salary of a supervisor of attendance.

Representative Yazell—To provide for non-partisan school boards in fourth-class cities and fixing maximum levy of \$1.50 for school purposes.

To authorize city bond issue of \$1,000.00 for University of Louisville.

Representative Cruse—To provide for a non-partisan Board of Education in third-class cities, fix maximum tax rate for schools at \$1.00 and provides for bond issues.

Representative Gable—To provide for maximum \$1.25 cent tax rate in graded school districts.

Representative McLellan—To fix minimum school tax at thirty-six cents in Louisville.

Representative Roth—To authorize

SOLDIERS AFTER TOBACCO RAIDERS

Mayfield, Ky., April 5.—Although Mayfield has been alarmed for several nights, fearing a second visit of the Night Riders, all is quiet now with the arrival of a squad of eight men and Captain Tom, of Leitchfield, of the state guards.

The guards brought a machine gun and other weapon. They were sent by Governor Edwin P. Morrow at the request of Circuit Judge Bunk Gardner.

Judge Gardner and other Court officials deemed the situation to be tense enough to make their presence necessary.

Richard Dunning, tobacco auctioneer had received a written notice signed by the "Night Riders" Committee warning him to cease selling tobacco or "suffer the consequence."

He was on duty as usual, notwithstanding the notice. The soldiers are to be used in assisting officers in serving summons of persons before the grand jury.

A number of persons have already been before the jury and many more have been notified to appear.

Governor Morrow has offered a reward of \$200 for every man convicted. The purpose of the Night Riders, who burned the tobacco chute recently, was to stop the sale of tobacco during the present low prices.

Seventy per cent of the tobacco of this county, it is estimated, still is in the hands of farmers, and the majority of farmers decline to offer their tobacco for sale at auction at the present prices. A few, however, continue to offer their crops at the declining prices. Thirty loads were sold at the chute, its reconstruction being almost complete.

Judge Gardner did not limit the grand jury, but told it to remain in session as long as it desired. His charge to the jury was the strongest to have been delivered in the county.

"Anarchy will be stopped in this country if I have to use every soldier in the United States to do it," he said.

At Pikeville, examining trials for Hawkins and Will Kelley will be held Tuesday. They are accused of having slain Tilden Moore, blacksmith, at Shelbyville Gap.

REMARKABLE RECOVERY

Extraordinary Curative Power of Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I want to let you know what good Lydia E. Pinkham's Vegetable Compound has done me. I had organic trouble and am going through the Change of Life. I was taken with a pain in my side and a bad headache. I could not lie down, could not eat or sleep. I suffered something terrible and the doctor's medicine did

me no good at all—my pains got worse instead of better. I began taking the Vegetable Compound and felt a change from the first. Now I feel fine and advise any one going through the Change of Life to try it, for it cured me after I had given up all hopes of getting better.

You can publish this and I will tell any one who writes to me the good it has done me."—Mrs. MARGARET DANZ, 743 N. 25th Street, Phila., Pa.

It hardly seems possible that there is a woman in this country who will continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial after all the evidence that is continually being published, proving beyond contradiction that this grand old medicine has relieved more suffering among women than any other medicine in the world.

Keep The Egg Basket Full!

The feed elements that make whites of eggs are entirely different from those that make yolks. When hens aren't fed both the white and yolk making elements, they can't keep the egg basket full. The usual method of feeding mostly grain makes yolks but not enough whites to complete the eggs.

Missouri Experiment Station tests prove that 100 lbs. of wheat, corn, oats, barley and kafir corn make (above bodily maintenance) an average of 224 yolks to 154 whites. Based on data from the same experiments, Purina formulas produce, (above bodily maintenance), as follows:

	Wheats	Whites
Purina Scratch Feed	247.49	142.11
Purina Chicken Chowder	182.05	282.55
Combined Ration	429.54	424.66

These Purina feeds not only make a practically equal number of whites and yolks but more of both than ordinary feeds.

Note that Purina Chicken Chowder contains the necessary white-forming elements to balance up the yolk-making grain ration. That's why it makes hens lay so heavily. Instead of the yolks being absorbed by the hen's system, Purina Chicken Chowder makes the whites to complete the eggs and they are laid. Thus we can absolutely guarantee

more eggs or money back.

On Purina Chicken Chowder if fed with Purina Scratch Feed as directed. You take no risk.
